*The information below replaces the information on the Funds independent registered public accounting firm contained in the section **Other Service Providers**, found on page 19 of the Prospectus.*

Tait, Weller & Baker, LLP, 50 South 16<sup>th</sup> Street, Suite 2900, Philadelphia, PA 19102, serves as the Funds' independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Funds.

*The information below replaces the information on the Funds independent registered public accounting firm contained in the section **Accounting and Legal Service Providers**, found on page 20 of the Statement of Additional Information.*

**ACCOUNTING AND LEGAL SERVICE PROVIDERS**

**Independent Registered Public Accounting Firm**

Tait, Weller & Baker, LLP, 50 South 16<sup>th</sup> Street, Suite 2900, Philadelphia, PA 19102, serves as the Funds' independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Funds.

*The information below replaces the information on the Funds' Trustees and Officers contained in the section **Management of the Funds**, found on pages 10-11 of the Statement of Additional Information.*

**MANAGEMENT OF THE FUNDS**

**Trustees and Officers**

The business and affairs of the Trust are managed by its officers under the oversight of its Board. The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of the Adviser, the Sub-Adviser, and the Trust's other service providers. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The Board is comprised of four Trustees. One Trustee and certain of the officers of the Trust are directors, officers or employees of the Adviser. The other Trustees (the "Independent Trustees") are not "interested persons" (as defined in Section 2(a)(19) of the Investment Company Act) of the Trust. The fund complex includes all funds advised by the Adviser ("Fund Complex").

The Trustees, their age, term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen and other directorships, if any, held by each Trustee, are shown below. The officers, their age, term of office and length of time served and their principal business occupations during the past five years are shown below. Unless noted otherwise, the address of each Trustee and each Officer is: c/o EA Series Trust, 19 East Eagle Road, Havertown, PA 19083.

<b>Name, Address, and Year of Birth</b>	<b>Position(s) Held with Trust</b>	<b>Term of Office and Length of Time Served</b>	<b>Principal Occupation During Past 5 Years</b>	<b>Number of Funds in Fund Complex Overseen by Trustee</b>	<b>Other Directorships Held by Trustee During Past 5 Years</b>
<b>Independent Trustees</b>					
Daniel Dorn Born: 1975	Trustee	Since 2014	Associate Professor of Finance, Drexel University, LeBow College of Business (2003 – present).	36	None
Michael S. Pagano, Ph.D., CFA® Born: 1962	Trustee	Since 2014	The Robert J. and Mary Ellen Darretta Endowed Chair in Finance, Villanova University (1999 – present); Founder, Michael S. Pagano, LLC (business consulting firm) (2008 – present).	36	Citadel Federal Credit Union (pro bono service for non-profit)

**Ticker Symbol: STXT**

**March 14, 2023**

**Supplement to the**  
**Statement of Additional Information**  
**dated October 3, 2022**

*The following updated information applies to **SHOC** and **STXT** (when available for purchase).*

The information in this Supplement updates information in, and should be read in conjunction with, the Statement of Additional Information for Strive U.S. Semiconductor ETF (**SHOC**) and Strive U.S. Technology ETF (**STXT**).

The sub-sections **Order Cut-Off Time** and **Orders Outside Clearing Process**, both included within the section **Additional Information Concerning Shares** of the SAI, have been updated to the following:

**Order Cut-Off Time.** For an order involving a Creation Unit to be effectuated at a Fund's NAV on a particular day, it must be received by the Distributor by or before the deadline for such order ("Order Cut-Off Time"). The Business Day following the day on which such an order is submitted to purchase Creation Units of such Fund is referred to as the "Order Placement Date."

The Order Cut-Off Time for orders to purchase Creation Units for Fund is 4:00 p.m. Eastern time.

Accordingly, In-Kind Creation and Redemption Baskets are expected to be accepted until the close of regular trading on the Exchange on each Business Day, which is usually 4:00 p.m., Eastern time. On days when the Exchange or bond markets close earlier than normal (such as the day before a holiday), the Order Cut-Off Time is expected to track the Exchange closing and be similarly earlier than normal.

Custom orders typically clear outside the Clearing Process and, therefore, like other orders outside the Clearing Process, may need to be transmitted early on the relevant Business Day to be effectuated at that day's NAV. A custom order may be placed when, for example, an Authorized Participant cannot transact in a security in the In-Kind Creation or Redemption Basket and additional cash is included in a Fund Deposit or Fund Redemption in lieu of such security. Custom orders may be required to be received by the Distributor by 3:00 p.m., Eastern time to be effectuated based on a Fund's NAV on that Business Day.

In all cases, cash and securities should be transferred to a Fund by the "Settlement Date," which, unless extended as noted below, is generally the Business Day immediately following the Transmittal Date. The Settlement Date may be extended if deemed to be in the best interests of the Fund and its shareholders by the Adviser. Persons placing custom orders or orders involving Cash Value should be aware of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may delay the delivery of cash and securities by the Settlement Date.

**Orders Outside Clearing Process.** Fund Deposits made outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. With respect to such orders, the Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of securities in the In-Kind Creation Basket (whether standard or custom) through DTC to the relevant Trust

account by 11:00 a.m., Eastern time (the “DTC Cut-Off Time”) on the Business Day immediately following the Transmittal Date. The amount of cash equal to the Cash Component, along with any cash in lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of corporate securities through DTC must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of government securities through the Federal Reserve System must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date.

An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. If the Custodian does not receive both the required In-Kind Creation Basket by the DTC Cut-Off Time and the Cash Component and applicable Transaction Fee by the appointed time, such order may be canceled. Upon written notice to the Distributor, a canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current In-Kind Creation Basket and Cash Component. Generally, the delivery of Creation Units so created will generally occur no later than the second Business Day following the day on which the order is deemed received by the Distributor. The Settlement Date may be extended if deemed to be in the best interests of the Fund and its shareholders by the Adviser. Authorized Participants that submit a canceled order will be liable to a Fund for any losses resulting therefrom.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify the Adviser and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver the Fund Deposit (or cash in lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The Authorized Participant must also make available on or before the Settlement, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee.

While, as stated above, Creation Units are generally delivered the following Business Day, and generally no later than the second Business Day following the day on which the order is deemed received by the Distributor, except the Fund may settle Creation Unit transactions on a basis other than the one described above in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

If you have any questions regarding **SHOC** and **STXT**, please call (215) 882-9983.

**Supplement to the**  
**Summary Prospectus, Prospectus and Statement of Additional Information**  
**all dated October 3, 2022**

*The following updated information applies to **SHOC** and **STXT** (when available for purchase).*

Effective immediately, the Board of Trustees has elected to declare and distribute each Fund's investment income, if any, to shareholders as dividends quarterly, instead of annually as previously disclosed. As of result of this change, the section of the Prospectus titled ***Dividends and Distributions*** found on page 23 has been updated to the following:

**Dividends and Distributions**

*Dividends and Distributions.* Each Fund has elected and intends to qualify each year as a regulated investment company under the Internal Revenue Code of 1986, as amended. As regulated investment companies, each Fund generally pays no federal income tax on the income and gains it distributes to you. Each Fund expects to declare and to distribute its net investment income, if any, to shareholders as dividends ***quarterly***. Each Fund will distribute net realized capital gains, if any, at least annually. Each Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the relevant Fund. The amount of any distribution will vary, and there is no guarantee a Fund will pay either an income dividend or a capital gains distribution. Distributions may be reinvested automatically in additional whole Shares only if the broker through whom you purchased Shares makes such option available.

## STRIVE U.S. SEMICONDUCTOR ETF

### Fund Summary

#### INVESTMENT OBJECTIVE

Strive U.S. Semiconductor ETF (the “Fund”) seeks to track the total return performance, before fees and expenses, of an index composed of U.S.-listed equities in the semiconductor sector.

#### FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund (“Shares”). You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the table or example below.

#### ANNUAL FUND OPERATING EXPENSES (EXPENSES THAT YOU PAY EACH YEAR AS A PERCENTAGE OF THE VALUE OF YOUR INVESTMENT)

Management Fee	0.40%
Distribution and/or Service (12b-1) Fees	None
Other Expenses <sup>1</sup>	0.00%
Total Annual Fund Operating Expenses	0.40%

<sup>1</sup> Other Expenses are estimated for the current fiscal year.

#### EXAMPLE

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the example. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>One Year:</b>	<b>Three Years:</b>
\$41	\$128

#### PORTFOLIO TURNOVER

The Fund may pay transaction costs, including commissions when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. As of the date of this Prospectus, the Fund has not yet commenced operations and portfolio turnover data therefore is not available.

#### PRINCIPAL INVESTMENT STRATEGIES

##### *The Fund’s Investment Strategy*

The Fund seeks to track the investment results of the Solactive United States Semiconductors 30 Capped Index (the “Index”), which measures the performance of the largest thirty (30) U.S. companies in the U.S. semiconductor sector as defined by Solactive AG (the “Index Provider” or “Solactive”). The Index includes large, mid, and small capitalization companies.

The Index is a subset of a float-adjusted capitalization weighted index of equity securities covering approximately the largest 99% of the free-float market capitalization in the U.S. stock market. While the Index includes large, mid and small capitalization companies, it is anticipated that the Fund's holdings will be comprised primarily of large and mid-capitalization companies.

The Index uses a capping methodology to constrain individual securities at quarterly rebalance to ensure: (i) the weight of the five securities with the largest free float market capitalization shall be capped at 7.5% per security and (ii) the weights of the remaining securities shall not have a weight greater than 4.5% per security. The Index will generally be comprised of thirty securities, but may be less, depending upon eligible securities and underlying liquidity thereof.

The weight of one or more securities in the Index may exceed these limits due to fluctuations in market value, corporate actions, or other events that change the Index composition between quarterly rebalance dates.

Substantially all of the Index is expected to be represented by securities of companies in the semiconductor sector. Such companies generally include semiconductor manufacturers and suppliers of materials that are used by semiconductor companies. As of June 23, 2022, over 95% of the Index was comprised of semiconductor companies. The Index Provider currently identifies semiconductor companies utilizing the industry classification analysis of the North America Industry Classification System, which is a third party that is not affiliated with the Fund, the Adviser, the Sub-Adviser (as defined below) or the Index Provider. The components of the Index are likely to change over time. The Index is calculated as a total return index in U.S. dollars. The Index is normally reconstituted on a quarterly basis in February, May, August, and November.

Strive Asset Management, LLC (the "Sub-Adviser") uses a "passive" or indexing approach to try to achieve the Fund's investment objective. Unlike many investment companies, the Fund does not try to "beat" the index it tracks and does not seek temporary defensive positions when markets decline or appear overvalued.

Indexing may eliminate the chance that the Fund will substantially outperform the Index but also may reduce some of the risks of active management, such as poor security selection. Indexing seeks to achieve lower costs and better after-tax performance by aiming to keep portfolio turnover low in comparison to actively managed investment companies.

Under normal circumstances, at least 80% of the Fund's total assets (exclusive of collateral held from securities lending) will be invested in U.S. semiconductor companies. The Sub-Adviser expects that, over time, the correlation between the Fund's performance and that of the Index, before fees and expenses, will be 95% or better.

The Fund will generally use a "replication" strategy to seek to achieve its investment objective, meaning the Fund will invest in all of the component securities of the Index in the same approximate proportions as in the Index, but may, when the Sub-Adviser believes it is in the best interests of the Fund, use a "representative sampling" strategy, meaning the Fund may invest in a sample of the securities in the Index whose risk, return and other characteristics closely resemble the risk, return and other characteristics of the Index as a whole.

The Fund will be considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund.

The Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in the semiconductor sector to approximately the same extent that the Index is concentrated.

## **PRINCIPAL RISKS**

An investment in the Fund involves risk, including those described below. *There is no assurance that the Fund will achieve its investment objective.* An investor may lose money by investing in the Fund. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. More complete risk descriptions are set forth below under the heading "*Additional Information About the Fund's Risks*".

**Semiconductor Sector Risk.** The semiconductor sector is highly cyclical and periodically experiences significant economic downturns characterized by diminished product demand, resulting in production overcapacity and excess inventory, which can result in rapid erosion of product selling prices. The sector has experienced significant

downturns, often in connection with, or in anticipation of, maturing product cycles of both semiconductor companies' and their customers' products and the decline in general economic conditions.

**Technology Sector Risk.** The Fund will have exposure to companies operating in the technology sector. Technology companies, including information technology companies, may have limited product lines, financial resources and/or personnel. Technology companies typically face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of those rights.

**Investment Risk.** When you sell your Shares of the Fund, they could be worth less than what you paid for them. The Fund could lose money due to short-term market movements and over longer periods during market downturns. Securities may decline in value due to factors affecting securities markets generally or particular asset classes or industries represented in the markets. The value of a security may decline due to general market conditions, economic trends or events that are not specifically related to the issuer of the security or to factors that affect a particular industry or group of industries. During a general downturn in the securities markets, multiple asset classes may be negatively affected. Therefore, you may lose money by investing in the Fund.

**Equity Investing Risk.** An investment in the Fund involves risks similar to those of investing in any fund holding equity securities, such as market fluctuations, changes in interest rates and perceived trends in stock prices. The values of equity securities could decline generally or could underperform other investments. In addition, securities may decline in value due to factors affecting a specific issuer, market or securities markets generally.

**Large-Capitalization Companies Risk.** Large-capitalization companies may trail the returns of the overall stock market. Large-capitalization stocks tend to go through cycles of doing better – or worse – than the stock market in general. These periods have, in the past, lasted for as long as several years. When large capitalization companies are out of favor, these securities may lose value or may not appreciate in line with the overall market.

**Mid-Capitalization Companies Risk.** The securities of mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of larger-capitalization companies. The securities of mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Some mid-capitalization companies have limited product lines, markets, and financial and managerial resources and tend to concentrate on fewer geographical markets relative to larger capitalization companies.

**Concentration Risk.** In following its methodology, the Index will be concentrated to a significant degree in securities of issuers in the semiconductor sector. To the extent that the Index concentrates in the securities of issuers in a particular industry, group of industries or sector(s), the Fund also will concentrate its investments to approximately the same extent. By concentrating its investments in the semiconductor sector, the Fund may face more risks than if it were diversified broadly over numerous industries, groups of industries or sectors.

**Non-Diversification Risk.** Because the Fund is non-diversified, it may be more sensitive to economic, business, political or other changes affecting individual issuers or investments than a diversified fund, which may result in greater fluctuation in the value of the Fund's Shares and greater risk of loss.

**Passive Investment Risk.** The Fund is not actively managed and the Sub-Adviser will not sell any investments due to current or projected underperformance of the securities, industries or sector in which it invests, unless the investment is removed from the Index, sold in connection with a rebalancing of the Index as addressed in the Index methodology, or sold to comply with the Fund's investment limitations (for example, to maintain the Fund's tax status). The Fund will maintain investments until changes to its Index are triggered, which could cause the Fund's return to be lower than if the Fund employed an active strategy.

**Index Calculation Risk.** The Index relies on various sources of information to assess the criteria of issuers included in the Index, including fundamental information that may be based on assumptions and estimates. Neither the Fund, the Sub-Adviser nor the Index Provider can offer assurances that the Index's calculation methodology or sources of information will provide a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

**Tracking Error Risk.** As with all index funds, the performance of the Fund and its respective Index may differ from each other for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs not incurred by the Index. In addition, the Fund may not be fully invested in the securities of the Index at all times or may hold securities not included in the Index.

#### **ETF Risks.**

- **Authorized Participants, Market Makers and Liquidity Providers Concentration Risk.** The Fund has a limited number of financial institutions that may act as Authorized Participants (“APs”). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- **Premium-Discount Risk.** The Shares may trade above or below their net asset value (“NAV”). The market prices of Shares will generally fluctuate in accordance with changes in NAV as well as the relative supply of, and demand for, Shares on NYSE Arca, Inc. (the “Exchange”) or other securities exchanges. The trading price of Shares may deviate significantly from NAV during periods of market volatility or limited trading activity in Shares.
- **Cost of Trading Risk.** Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares.
- **Trading Risk.** Although the Shares are listed on the Exchange, there can be no assurance that an active or liquid trading market for them will develop or be maintained. In addition, trading in Shares on the Exchange may be halted. In stressed market conditions, the liquidity of the Fund’s Shares may begin to mirror the liquidity of its underlying portfolio holdings, which can be less liquid than the Fund’s Shares, potentially causing the market price of the Fund’s Shares to deviate from its NAV.

**Index Risk - Quarterly Rebalance Risk.** Because the Index generally changes its exposure based on data that is analyzed in connection with a quarterly rebalance (a “Rebalance”), (i) the Index’s exposure may be affected by significant market movements at or around the time of a Rebalance that are not predictive of the market’s performance for the subsequent Rebalance and (ii) changes to the Index’s exposure may lag a significant change in the market’s direction (up or down) by as long as a quarter if such changes first take effect at or around the time of Rebalance. Such lags between market performance and changes to the Index’s exposure may result in significant underperformance relative to the broader equity or fixed income market. Index rebalances may cause the Fund to purchase or sell securities at inopportune times or for prices other than at current market values. Due to these factors, the variation between the Fund’s annual return and the return of the Index may increase significantly.

**New Fund Risk.** The Fund is a recently organized management investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision. There can be no assurance that the Fund will grow to or maintain an economically viable size.

**Geopolitical/Natural Disaster Risks.** The Fund’s investments are subject to geopolitical and natural disaster risks, such as war, terrorism, trade disputes, political or economic dysfunction within some nations, public health crises and related geopolitical events, as well as environmental disasters, epidemics and/or pandemics, which may add to instability in world economies and volatility in markets. The impact may be short-term or may last for extended periods.

## PERFORMANCE

Performance information is not provided below because the Fund has not yet been in operation for a full calendar year. When provided, the information will provide some indication of the risks of investing in the Fund by showing how the Fund's average annual returns compare with a broad measure of market performance. Past performance does not necessarily indicate how the Fund will perform in the future. Performance information is available on the Fund's website at [www.strivefunds.com](http://www.strivefunds.com) or by calling the Fund at (215) 882-9983.

## INVESTMENT ADVISER

Investment Adviser: Empowered Funds, LLC dba EA Advisers ("Adviser")  
Investment Sub-Adviser: Strive Asset Management, LLC ("Sub-Adviser")

## PORTFOLIO MANAGERS

Matthew Cole, Portfolio Manager of the Sub-Adviser, has been primarily responsible for the day-to-day management of the Fund since its inception in 2022.

## SUMMARY INFORMATION ABOUT PURCHASES, SALES, TAXES, AND FINANCIAL INTERMEDIARY COMPENSATION

### PURCHASE AND SALE OF FUND SHARES

The Fund issues and redeems Shares on a continuous basis only in large blocks of Shares, typically 10,000 Shares, called "Creation Units," and only APs (typically, broker-dealers) may purchase or redeem Creation Units. Creation Units generally are issued and redeemed 'in-kind' for securities and partially in cash. Individual Shares may only be purchased and sold in secondary market transactions through brokers. Once created, individual Shares generally trade in the secondary market at market prices that change throughout the day. Market prices of Shares may be greater or less than their NAV. **Except when aggregated in Creation Units, the Fund's shares are not redeemable securities.**

## TAX INFORMATION

The Fund's distributions generally are taxable to you as ordinary income, capital gain, or some combination of both, unless your investment is in an Individual Retirement Account ("IRA") or other tax-advantaged account. However, subsequent withdrawals from such a tax-advantaged account may be subject to federal income tax. You should consult your tax advisor about your specific tax situation.

## PURCHASES THROUGH BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase Shares through a broker-dealer or other financial intermediary, the Fund and its related companies may pay the intermediary for the sale of Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend Shares over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

## STRIVE U.S. TECHNOLOGY ETF

Fund Summary

## INVESTMENT OBJECTIVE

Strive U.S. Technology ETF (the "Fund") seeks to track the total return performance, before fees and expenses, of an index composed of U.S.-listed equities in the technology sector.

## FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund (“Shares”). You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the table and example below.

### ANNUAL FUND OPERATING EXPENSES (EXPENSES THAT YOU PAY EACH YEAR AS A PERCENTAGE OF THE VALUE OF YOUR INVESTMENT)

Management Fee	0.39%
Distribution and/or Service (12b-1) Fees	None
Other Expenses <sup>1</sup>	0.00%
Total Annual Fund Operating Expenses	0.39%

<sup>1</sup> Other Expenses are estimated for the current fiscal year.

## EXAMPLE

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the example. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>One Year:</b>	<b>Three Years:</b>
\$40	\$125

## PORTFOLIO TURNOVER

The Fund may pay transaction costs, including commissions when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. As of the date of this Prospectus, the Fund has not yet commenced operations and portfolio turnover data therefore is not available.

## PRINCIPAL INVESTMENT STRATEGIES

### *The Fund’s Investment Strategy*

The Fund seeks to track the investment results of the Solactive United States Technology Regulated Capped Index (the “Index”), which measures the performance of the technology sector of the U.S. equity market as defined by Solactive AG (the “Index Provider” or “Solactive”). The Index includes large, and mid-capitalization companies.

The Index is a subset of the Solactive GBS United States 1000 Index (total return), which is a float-adjusted capitalization weighted index of equity securities comprising the 1000 largest companies from the US stock market.

The Index uses a capping methodology to constrain individual securities at quarterly rebalance to ensure: (i) the weights of any single issuer in the Index shall not exceed 22.5%, and (ii) the aggregate weight of all issuers that individually exceed 4.5% of the Index shall not have a weight greater than 45%.

The weight of one or more securities in the Index may exceed these limits due to fluctuations in market value of the securities in the Index, corporate actions, or other events that change the Index composition between quarterly rebalance dates.

Substantially all of the Index is expected to be represented by securities of companies in the U.S. technology sector. As of August 11, 2022, the Index consisted of approximately 130 constituents and the market capitalization range of was approximately \$1 billion to \$1.2 trillion. Also as of August 11, 2022, the Index held three positions that represented greater than 10% of the Fund's total assets: Apple, Inc. 18.30%, Microsoft Corporation 15.94%, and Alphabet 10.21%.

The Index Provider currently identifies U.S. technology companies utilizing the Refinitiv Business Classification Network ("Refinitiv"), which is provided by a third-party that is not affiliated with the Fund, the Adviser, the Sub-Adviser (as defined below) or the Index Provider. The Index considers a company to be a technology company if it falls within the following classification categories as defined by Refinitiv: Financial Technology (Fintech) and Infrastructure, Telecommunications Services, Communications and Networking, Integrated Hardware & Software, Household Electronics, Internet Security & Transactions Services, E-commerce and Auction Services, and Online Services, Internet Gaming, IT Services and Consulting. The components of the Index are likely to change over time.

The Index is calculated as a total return index in U.S. dollars. The Index is normally reconstituted on a quarterly basis in February, May, August, and November.

Strive Asset Management, LLC (the "Sub-Adviser") uses a "passive" or indexing approach to try to achieve the Fund's investment objective. Unlike many investment companies, the Fund does not try to "beat" the index it tracks and does not seek temporary defensive positions when markets decline or appear overvalued.

Indexing may eliminate the chance that the Fund will substantially outperform the Index but also may reduce some of the risks of active management, such as poor security selection. Indexing seeks to achieve lower costs and better after-tax performance by aiming to keep portfolio turnover low in comparison to actively managed investment companies.

Under normal circumstances, at least 80% of the Fund's total assets (exclusive of collateral held from securities lending) will be invested in the U.S. technology sector. The Sub-Adviser expects that, over time, the correlation between the Fund's performance and that of the Index, before fees and expenses, will be 95% or better.

The Fund will generally use a "replication" strategy to seek to achieve its investment objective, meaning the Fund will invest in all of the component securities of the Index in the same approximate proportions as in the Index, but may, when the Sub-Adviser believes it is in the best interests of the Fund, use a "representative sampling" strategy, meaning the Fund may invest in a sample of the securities in the Index whose risk, return and other characteristics closely resemble the risk, return and other characteristics of the Index as a whole.

The Fund will be considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund.

The Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in the U.S. technology sector to approximately the same extent that the Index is concentrated.

## **PRINCIPAL RISKS**

An investment in the Fund involves risk, including those described below. *There is no assurance that the Fund will achieve its investment objective.* An investor may lose money by investing in the Fund. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. More complete risk descriptions are set forth below under the heading "*Additional Information About the Fund's Risks*".

**Technology Sector Risk.** The Fund will have exposure to companies operating in the technology sector. Technology companies, including information technology companies, may have limited product lines, financial resources and/or personnel. Technology companies typically face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of those rights.

**Investment Risk.** When you sell your Shares of the Fund, they could be worth less than what you paid for them. The Fund could lose money due to short-term market movements and over longer periods during market downturns.

Securities may decline in value due to factors affecting securities markets generally or particular asset classes or industries represented in the markets. The value of a security may decline due to general market conditions, economic trends or events that are not specifically related to the issuer of the security or to factors that affect a particular sector or group of sectors. During a general downturn in the securities markets, multiple asset classes may be negatively affected. Therefore, you may lose money by investing in the Fund.

**Equity Investing Risk.** An investment in the Fund involves risks similar to those of investing in any fund holding equity securities, such as market fluctuations, changes in interest rates and perceived trends in stock prices. The values of equity securities could decline generally or could underperform other investments. In addition, securities may decline in value due to factors affecting a specific issuer, market or securities markets generally.

**Large-Capitalization Companies Risk.** Large-capitalization companies may trail the returns of the overall stock market. Large-capitalization stocks tend to go through cycles of doing better – or worse – than the stock market in general. These periods have, in the past, lasted for as long as several years. When large capitalization companies are out of favor, these securities may lose value or may not appreciate in line with the overall market.

**Mid-Capitalization Companies Risk.** The securities of mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of larger-capitalization companies. The securities of mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Some mid-capitalization companies have limited product lines, markets, and financial and managerial resources and tend to concentrate on fewer geographical markets relative to larger capitalization companies.

**Concentration Risk.** In following its methodology, the Index from time to time may be concentrated to a significant degree in securities of issuers located in a single industry, group of industries or sector(s). To the extent that the Index concentrates in the securities of issuers in a particular industry, group of industries or sector(s), the Fund also may concentrate its investments to approximately the same extent. By concentrating its investments in an industry, group of industries or sector(s), the Fund may face more risks than if it were diversified broadly over numerous industries or groups of industries or sectors. If the Index is not concentrated in a particular industry, group of industries or sector(s) the Fund will similarly not concentrate its investments.

**Non-Diversification Risk.** Because the Fund is non-diversified, it may be more sensitive to economic, business, political or other changes affecting individual issuers or investments than a diversified fund, which may result in greater fluctuation in the value of the Fund's Shares and greater risk of loss.

**Passive Investment Risk.** The Fund is not actively managed and the Sub-Adviser will not sell any investments due to current or projected underperformance of the securities, industries or sector(s) in which it invests, unless the investment is removed from the Index, sold in connection with a rebalancing of the Index as addressed in the Index methodology, or sold to comply with the Fund's investment limitations (for example, to maintain the Fund's tax status). The Fund will maintain investments until changes to its Index are triggered, which could cause the Fund's return to be lower than if the Fund employed an active strategy.

**Index Calculation Risk.** The Index relies on various sources of information to assess the criteria of issuers included in the Index, including fundamental information that may be based on assumptions and estimates. Neither the Fund, the Adviser, the Sub-Adviser nor the Index Provider can offer assurances that the Index's calculation methodology or sources of information will provide a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

**Tracking Error Risk.** As with all index funds, the performance of each Fund and their respective Indexes may differ from each other for a variety of reasons. For example, a Fund incurs operating expenses and portfolio transaction costs not incurred by the Index. In addition, the Fund may not be fully invested in the securities of the Index at all times or may hold securities not included in the Index.

## ETF Risks.

- **Authorized Participants, Market Makers and Liquidity Providers Concentration Risk.** The Fund has a limited number of financial institutions that may act as Authorized Participants (“APs”). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- **Premium-Discount Risk.** The Shares may trade above or below their net asset value (“NAV”). The market prices of Shares will generally fluctuate in accordance with changes in NAV as well as the relative supply of, and demand for, Shares on NYSE Arca, Inc. (“Exchange”) or other securities exchanges. The trading price of Shares may deviate significantly from NAV during periods of market volatility or limited trading activity in Shares.
- **Cost of Trading Risk.** Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares.
- **Trading Risk.** Although the Shares are listed on the Exchange, there can be no assurance that an active or liquid trading market for them will be maintained. In addition, trading in Shares on the Exchange may be halted. In stressed market conditions, the liquidity of the Fund’s Shares may begin to mirror the liquidity of its underlying portfolio holdings, which can be less liquid than the Fund’s Shares, potentially causing the market price of the Fund’s Shares to deviate from its NAV.

**Index Risk - Quarterly Rebalance Risk.** Because the Index generally changes its exposure based on data that is analyzed in connection with a quarterly rebalance (a “Rebalance”), (i) the Index’s exposure may be affected by significant market movements at or around the time of a Rebalance that are not predictive of the market’s performance for any subsequent Rebalance and (ii) changes to the Index’s exposure may lag a significant change in the market’s direction (up or down) by as long as a quarter if such changes first take effect at or around the time of a Rebalance. Such lags between market performance and changes to the Index’s exposure may result in significant underperformance relative to the broader equity or fixed income market. Index rebalances may cause the Fund to purchase or sell securities at inopportune times or for prices other than at current market values. Due to these factors, the variation between the Fund’s annual return and the return of the Index may increase significantly.

**New Fund Risk.** The Fund is a recently organized management investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision. There can be no assurance that the Fund will grow to or maintain an economically viable size.

**Geopolitical/Natural Disaster Risks.** The Fund’s investments are subject to geopolitical and natural disaster risks, such as war, terrorism, trade disputes, political or economic dysfunction within some nations, public health crises and related geopolitical events, as well as environmental disasters, epidemics and/or pandemics, which may add to instability in world economies and volatility in markets. The impact may be short-term or may last for extended periods.

## PERFORMANCE

Performance information is not provided below because the Fund has not yet been in operation for a full calendar year. When provided, the information will provide some indication of the risks of investing in the Fund by showing how the Fund’s average annual returns compare with a broad measure of market performance. Past performance does not necessarily indicate how the Fund will perform in the future. Performance information is available on the Fund’s website at [www.strivefunds.com](http://www.strivefunds.com) or by calling the Fund at (215) 882-9983.

## **INVESTMENT ADVISER & INVESTMENT SUB-ADVISER**

Investment Adviser: Empowered Funds, LLC dba EA Advisers (“Adviser”)  
Investment Sub-Strive Asset Management, LLC (“Sub-Adviser”)  
Adviser:

## **PORTFOLIO MANAGERS**

Matthew Cole, Portfolio Manager of the Sub-Adviser, has been primarily responsible for the day-to-day management of the Fund since its inception in 2022.

## **SUMMARY INFORMATION ABOUT PURCHASES, SALES, TAXES, AND FINANCIAL INTERMEDIARY COMPENSATION**

### **PURCHASE AND SALE OF FUND SHARES**

The Fund issues and redeems Shares on a continuous basis only in large blocks of Shares, typically 10,000 Shares, called “Creation Units,” and only APs (typically, broker-dealers) may purchase or redeem Creation Units. Creation Units generally are issued and redeemed ‘in-kind’ for securities and partially in cash. Individual Shares may only be purchased and sold in secondary market transactions through brokers. Once created, individual Shares generally trade in the secondary market at market prices that change throughout the day. Market prices of Shares may be greater or less than their NAV. **Except when aggregated in Creation Units, the Fund’s shares are not redeemable securities.**

### **TAX INFORMATION**

The Fund’s distributions generally are taxable to you as ordinary income, capital gain, or some combination of both, unless your investment is in an Individual Retirement Account (“IRA”) or other tax-advantaged account. However, subsequent withdrawals from such a tax-advantaged account may be subject to federal income tax. You should consult your tax advisor about your specific tax situation.

### **PURCHASES THROUGH BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES**

If you purchase Shares through a broker-dealer or other financial intermediary, the Fund and its related companies may pay the intermediary for the sale of Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend Shares over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

### **ADDITIONAL INFORMATION ABOUT THE FUNDS**

#### **HOW ARE THE FUNDS DIFFERENT FROM MUTUAL FUNDS?**

**Redeemability.** Mutual fund shares may be bought from, and redeemed with, the issuing fund for cash at NAV typically calculated once at the end of the business day. Shares of the Funds, by contrast, cannot be purchased from or redeemed with the Funds except by or through APs (typically, broker-dealers), and then principally for an in-kind basket of securities (and a limited cash amount). In addition, each Fund issues and redeems Shares on a continuous basis only in large blocks of Shares (for example, 10,000 Shares) called “Creation Units.”

**Exchange Listing.** Unlike mutual fund shares, Shares of each Fund are listed for trading on the Exchange. Investors can purchase and sell Shares on the secondary market through a broker. Investors purchasing Shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges. Secondary-market transactions do not occur at NAV, but at market prices that change throughout the day, based on the supply of, and demand for, Shares and on changes in the prices of a Fund’s portfolio holdings. The market price of Shares may differ from the NAV of a Fund. The difference between market price of Shares and the NAV of a Fund is called a premium when the market price is above the reported NAV and called a discount when the market price is below the reported NAV, and the difference is expected to be small most of the time, though it may be significant, especially in times of extreme market volatility.

**Tax Treatment.** The Funds and the Shares have been designed to be tax-efficient. Specifically, their in-kind creation and redemption feature has been designed to protect Fund shareholders from adverse tax consequences applicable to non-ETF registered investment companies as a result of cash transactions in the non-ETF registered investment company's shares, including cash redemptions. Nevertheless, to the extent redemptions from a Fund are paid in cash, the Fund may realize capital gains or losses, including in some cases short-term capital gains, upon the sale of portfolio securities to generate the cash to satisfy the redemption.

**Transparency.** Each Fund's portfolio holdings are disclosed on its website daily after the close of trading on the Exchange and prior to the opening of trading on the Exchange the following day. A description of the Funds' policies and procedures with respect to the disclosure of the Funds' portfolio holdings is available in the Funds' Statement of Additional Information ("SAI").

**Premium/Discount Information.** Information about the premiums and discounts at which the Funds' Shares have traded is available at [www.strivefunds.com](http://www.strivefunds.com).

#### **ADDITIONAL INFORMATION ABOUT THE FUNDS' INVESTMENT OBJECTIVES AND STRATEGIES**

Each Fund's investment objective is a non-fundamental investment policy and may be changed without a vote of shareholders upon prior written notice to shareholders.

For all Funds, under normal circumstances, at least 80% of a Fund's total assets (exclusive of collateral held from securities lending) will be invested in the component securities of the Fund's applicable Index.

#### **ADDITIONAL INFORMATION ABOUT THE FUNDS' RISKS**

The following information is in addition to, and should be read along with, the description of each Fund's principal investment risks in the sections titled "Fund Summary—Principal Risks" above. The risks described below apply to each Fund unless otherwise specified.

**Concentration Risk.** In following its methodology, each Index from time to time may be concentrated to a significant degree in securities of issuers located in a single industry or sector or group of industries or sectors. To the extent that an Index concentrates in the securities of issuers in a particular industry, sector or group of industries or sectors, a Fund also may concentrate its investments to approximately the same extent. By concentrating its investments in an industry or sector or group of industries or sectors, the Fund may face more risks than if it were diversified broadly over numerous industries or groups of industries or sectors. The Strive U.S. Semiconductor ETF is concentrated in the semiconductor sector and the Strive U.S. Technology ETF is concentrated in the technology sector. If an Index is not concentrated in a particular industry or sector or group of industries or sectors, the Fund will similarly not concentrate its investments.

#### **ETF Risks.**

- **APs, Market Makers, and Liquidity Providers Concentration Risk.** Each Fund has a limited number of financial institutions that may act as APs. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- **Premium-Discount Risk.** The Shares may trade above or below their NAV. The NAV of each Fund will generally fluctuate with changes in the market value of the Fund's holdings. The market prices of Shares, however, will generally fluctuate in accordance with changes in NAV as well as the relative supply of, and demand for, Shares on the Exchange and other securities exchanges. The trading price of Shares may deviate significantly from NAV during periods of market volatility or limited trading in Shares. The Adviser cannot predict whether Shares will trade below, at or above their NAV. Price differences may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for Shares will be closely

related to, but not identical to, the same forces influencing the prices of the securities held by the relevant Fund. However, given that Shares can be purchased and redeemed in large blocks of Shares, called Creation Units (unlike shares of closed-end funds, which frequently trade at appreciable discounts from, and sometimes at premiums to, their NAV), and each Fund's portfolio holdings are fully disclosed on a daily basis, the Adviser believes that large discounts or premiums to the NAV of Shares should not be sustained, but that may not be the case.

- **Cost of Trading Risk.** Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to pay for Shares (the "bid" price) and the price at which an investor is willing to sell Shares (the "ask" price). This difference in bid and ask prices is often referred to as the "spread" or "bid/ask spread." The bid/ask spread varies over time for Shares based on trading volume and market liquidity, and is generally lower if a Fund's Shares have more trading volume and market liquidity and higher if a Fund's Shares have little trading volume and market liquidity. Further, increased market volatility may cause increased bid/ask spreads.
- **Trading Risk.** Although the Shares are listed on the Exchange, there can be no assurance that an active or liquid trading market for them will develop or be maintained. In addition, trading in Shares on the Exchange may be halted. In stressed market conditions, the liquidity of the Fund's Shares may begin to mirror the liquidity of its underlying portfolio holdings, which can be significantly less liquid than the Fund's Shares, potentially causing the market price of the Fund's Shares to deviate from its NAV.

**Equity Investing Risk.** An investment in a Fund involves risks similar to those of investing in any fund holding equity securities, such as market fluctuations, changes in interest rates and perceived trends in stock prices. The values of equity securities could decline generally or could underperform other investments. Different types of equity securities tend to go through cycles of outperformance and underperformance in comparison to the general securities markets. In addition, securities may decline in value due to factors affecting a specific issuer, market or securities markets generally. Recent turbulence in financial markets and reduced liquidity in credit and fixed income markets may negatively affect many issuers worldwide, which may have an adverse effect on a Fund.

**Geopolitical/Natural Disaster Risks.** Geopolitical and other risks, including war, terrorism, trade disputes, political or economic dysfunction within some nations, public health crises and related geopolitical events, as well as environmental disasters such as earthquakes, fire and floods, may add to instability in world economies and volatility in markets generally. Changes in trade policies and international trade agreements could affect the economies of many countries in unpredictable ways. Epidemics and/or pandemics, such as the coronavirus (or COVID-19), may likewise result in economic instability and market volatility. The impact may be short-term or may last for extended periods.

The respiratory illness COVID-19 caused by a novel coronavirus has resulted in a global pandemic and major disruption to economies and markets around the world, including the United States. Financial markets have experienced extreme volatility and severe losses, and trading in many instruments has been disrupted. Liquidity for many instruments has been greatly reduced for periods of time. Some interest rates are very low and in some cases yields are negative. Some sectors of the economy and individual issuers have experienced particularly large losses. These circumstances may continue for an extended period of time, and may affect adversely the value and liquidity of the Fund's investments.

**Index Calculation Risk.** The Index relies on various sources of information to assess the criteria of issuers included in the Index, including fundamental information that may be based on assumptions and estimates. Neither the Fund, the Adviser, the Sub-Adviser nor the Index Provider can offer assurances that the Index's calculation methodology or sources of information will provide a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

**Index Risk - Quarterly Rebalance Risk.** Because each Index generally only changes its exposure based on data that is analyzed in connection with a quarterly rebalance (a "Rebalance"), (i) the Index's exposure may be affected by significant market movements at or around the time of a Rebalance that are not predictive of the market's performance

for the subsequent Rebalance and (ii) changes to an Index's exposure may lag a significant change in the market's direction (up or down) by as long as a quarter if such changes first take effect at or around the time of a Rebalance. Such lags between market performance and changes to an Index's exposure may result in significant underperformance relative to the broader equity or fixed income market. Index rebalances may cause the Fund to purchase or sell securities at inopportune times or for prices other than at current market values. Due to these factors, the variation between the Fund's annual return and the return of the Index may increase significantly.

**Investment Risk.** As with all investments, an investment in each Fund is subject to investment risk. Investors in each Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

**Large-Capitalization Companies Risk.** Large-capitalization companies may trail the returns of the overall stock market. Large-capitalization stocks tend to go through cycles of doing better – or worse – than the stock market in general. These periods have, in the past, lasted for as long as several years. When large capitalization companies are out of favor, these securities may lose value or may not appreciate in line with the overall market.

**Mid-Capitalization Companies Risk.** The securities of mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of larger-capitalization companies. The securities of mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Some mid-capitalization companies have limited product lines, markets, and financial and managerial resources and tend to concentrate on fewer geographical markets relative to larger capitalization companies.

**New Fund Risk.** Each Fund is a recently organized management investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision. There can be no assurance that the Funds will grow to or maintain an economically viable size.

**Non-Diversification Risk.** Because each Fund is non-diversified, it may be more sensitive to economic, business, political or other changes affecting individual issuers or investments than a diversified fund, which may result in greater fluctuation in the value of the Fund's Shares and greater risk of loss.

**Passive Investment Risk.** The Funds invest in the securities included in, or representative of, its Index regardless of their investment merit. The Funds do not attempt to outperform its respective Index or take defensive positions in declining markets. As a result, a Fund's performance may be adversely affected by a general decline in the market segments relating to its Index. The returns from the types of securities in which a Fund invests may underperform returns from the various general securities markets or different asset classes. The Funds are not actively managed and the Sub-Adviser will not sell any investments due to current or projected underperformance of the securities, industries or sector in which it invests, unless that investment is removed from the Index, sold in connection with a rebalancing of the Index as addressed in the Index methodology, or sold to comply with a Fund's investment limitations (for example, to maintain the Fund's tax status). Each Fund will maintain investments until changes to its Index are triggered, which could cause the Fund's return to be lower than if the Fund employed an active strategy.

**Semiconductor Sector Risk (Semiconductor ETF only).** The semiconductor sector is highly cyclical and periodically experiences significant economic downturns characterized by diminished product demand, resulting in production overcapacity and excess inventory, which can result in rapid erosion of product selling prices. The sector has experienced significant downturns, often in connection with, or in anticipation of, maturing product cycles of both semiconductor companies' and their customers' products and the decline in general economic conditions.

**Technology Sector Risk.** Each Fund will have exposure to companies operating in the technology sector. Technology companies, including information technology companies, may have limited product lines, financial resources and/or personnel. Technology companies typically face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of those rights.

**Tracking Error Risk.** As with all index funds, the performance of each Fund and its respective Index may differ from each other for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction

costs not incurred by an Index. In addition, the Fund may not be fully invested in the securities of its Index at all times or may hold securities not included in the Index. As a result of legal restrictions or limitations that apply to the Fund but not to the Index, the Fund may have less relative short exposure than the Index during periods in between the Index's monthly hedging reconstitutions. Such differences in short exposure may cause the performance of the Fund and its Index to differ from each other.

#### **ADDITIONAL INFORMATION ABOUT THE INDICES**

The Sub-Adviser has entered into a license agreement with the Index Provider pursuant to which the Sub-Adviser pays a fee to use each Index and the marketing names as licensed trademarks of Solactive AG ("Solactive"). The Sub-Adviser has licensed the use of the Indices to the Adviser and the Adviser is sub-licensing the rights to such Indices to each Fund. The Index is compiled and calculated by Solactive.

Solactive AG ("Solactive") is the licensor of Solactive United States Semiconductors 30 Capped Index and the Solactive United States Technology Regulated Capped Index (each, an "Index"). The financial instruments that are based on each Index are not sponsored, endorsed, promoted or sold by Solactive in any way and Solactive makes no express or implied representation, guarantee or assurance with regard to: (a) the advisability in investing in the financial instruments; (b) the quality, accuracy and/or completeness of the Index; and/or (c) the results obtained or to be obtained by any person or entity from the use of each Index. Solactive does not guarantee the accuracy and/or the completeness of each Index and shall not have any liability for any errors or omissions with respect thereto. Notwithstanding Solactive's obligations to its licensees, Solactive reserves the right to change the methods of calculation or publication with respect to each Index and Solactive shall not be liable for any miscalculation of or any incorrect, delayed or interrupted publication with respect to each Index. Solactive shall not be liable for any damages, including, without limitation, any loss of profits or business, or any special, incidental, punitive, indirect or consequential damages suffered or incurred as a result of the use (or inability to use) of an Index.

No entity that creates, compiles, sponsors or maintains an Index is or will be an affiliated person, as defined in Section 2(a)(3) of the 1940 Act, or an affiliated person of an affiliated person, of the Trust, the Adviser, the Sub-Adviser, the Distributor or a promoter of the Funds.

Neither the Adviser, the Sub-Adviser, nor any of their respective affiliates have any rights to influence the selection of the securities in any Index.

#### **FUND MANAGEMENT**

Empowered Funds, LLC dba EA Advisers acts as the Fund's investment adviser (the "Adviser"). The Adviser selects each Fund's sub-adviser and oversees the sub-adviser's management of each Fund. The Adviser also provides trading, execution and various other administrative services and supervises the overall daily affairs of each Fund. The Adviser is located at 19 East Eagle Road, Havertown, PA 19083 and is wholly-owned by Alpha Architect LLC. The Adviser is registered with the Securities and Exchange Commission ("SEC") under the Investment Advisers Act of 1940, as amended (the "Advisers Act") and provides investment advisory services solely to the Funds and other exchange-traded funds. The Adviser was founded in October 2013.

The Adviser performs its services to the Funds pursuant to the terms of an investment advisory agreement (the "Advisory Agreement") between the Trust and the Adviser. The Adviser is entitled to receive an advisory fee based each Fund's average daily net assets for the services and facilities it provides payable at the annual rates set forth in the table below:

<b>Fund</b>	<b>Advisory Fee</b>
Strive U.S. Semiconductor ETF	0.40%
Strive U.S. Technology ETF	0.39%

The Adviser (or an affiliate of the Adviser) bears all of the Adviser's own costs associated with providing these advisory services and all expenses of the Funds, except for the fee payment under the Advisory Agreements, payments under each Fund's Rule 12b-1 Distribution and Service Plan (the "Plan"), brokerage expenses, acquired fund fees and

expenses, taxes, interest (including borrowing costs), litigation expense (including class-action related services) and other non-routine or extraordinary expenses.

The Advisory Agreement for a Fund provides that it may be terminated at any time, without the payment of any penalty, by the Board or, with respect to a Fund, by a majority of the outstanding shares of the Fund, on 60 days' written notice to the Adviser, and by the Adviser upon 60 days' written notice, and that it shall be automatically terminated if it is assigned.

### **Investment Sub-Adviser**

The Adviser has retained Strive Asset Management, LLC (the "Sub-Adviser"), an investment adviser registered with the SEC under the Advisers Act, to provide sub-advisory services to the Fund. The Sub-Adviser is organized as an Ohio limited liability company with its principal offices located at 6515 Longshore Loop, Suite 100, Dublin, OH 43017. The Sub-Adviser was founded in 2022. The Sub-Adviser has discretionary responsibility to select the Fund's investments in accordance with the Fund's investment objectives, policies and restrictions. The Sub-Adviser is not responsible for selecting broker-dealers or placing the Fund's trades. Rather, the Sub-Adviser constructs the overall portfolio and provides trading instructions to the Adviser, and, in turn, the Adviser is responsible for selecting broker-dealers and placing the Fund's trades.

Pursuant to a sub-advisory agreement (the "Sub-Advisory Agreement"), the Adviser pays the Sub-Adviser a fee, which is calculated daily and paid monthly, at an annual rate based on each Fund's average daily net assets as follows:

<b>Fund</b>	<b>Sub-Advisory Fee</b>
Strive U.S. Semiconductor ETF	0.20%
Strive U.S. Technology ETF	0.20%

### **Fund Sponsor**

The Adviser has entered into a fund sponsorship agreement with the Sub-Adviser pursuant to which the Sub-Adviser is also the sponsor of the Fund ("Fund Sponsor"). Under this arrangement, the Fund Sponsor has agreed to provide financial support to the Fund (as described below) and, in turn, the Adviser has agreed to share with the Fund Sponsor a portion of profits, if any, generated by the Fund's Advisory Fee (also as described below). Every month, the Advisory Fee, which is a unitary management fee, is calculated and paid to the Adviser.

If the amount of the unitary management fee exceeds the Fund's operating expenses and the Adviser-retained amount, the Adviser pays the net total to the Fund Sponsor. The amount paid to the Fund Sponsor represents both the sub-advisory fee and any remaining profits from the Advisory Fee. During months where there are no profits or the funds are not sufficient to cover the entire sub-advisory fee, the sub-advisory fee is automatically waived.

If the amount of the unitary management fee is less than the Fund's operating expenses and the Adviser-retained amount, Fund Sponsor is obligated to reimburse the Adviser for the shortfall.

### **APPROVAL OF ADVISORY AGREEMENTS & INVESTMENT SUB-ADVISORY AGREEMENTS**

A discussion regarding the basis for the Board's approval of the Advisory Agreement and the sub-advisory agreement with respect to the Funds will be available in the Funds' annual report.

### **PORTFOLIO MANAGER**

Mr. Matthew Cole is the portfolio manager who is primarily responsible for the day-to-day management of each Fund.

Mr. Matthew Cole has been portfolio manager of each Fund since inception. Mr. Cole has advised on determining the investment exposures of the Fund for the Sub-Adviser since October 2022, where he heads product and investments. Prior to Mr. Cole's tenure with the Sub-Adviser, Mr. Cole was a Fixed Income Portfolio Manager for a large US

pension fund. Mr. Cole served with the U.S. pension fund starting in 2011. Mr. Cole has a MBA in Finance and a B.Sc in Finance and Risk Management & Insurance from Sacramento State University. He is also a CFA® Charterholder.

The Funds' SAI provides additional information about the portfolio managers, including other accounts they manage, ownership in the Funds, and compensation.

#### **OTHER SERVICE PROVIDERS**

Quasar Distributors, LLC ("Distributor") serves as the distributor of Creation Units (defined above) for the Funds on an agency basis. The Distributor does not maintain a secondary market in Shares.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, is the administrator, fund accountant and transfer agent for the Funds.

U.S. Bank National Association is the custodian for the Funds.

Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, Kansas 66211, serves as legal counsel to the Trust.

Cohen & Company, Ltd., 342 North Water Street, Suite 830, Milwaukee, Wisconsin 53202, serves as the Funds' independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Funds.

#### **THE EXCHANGE**

Shares of the Funds are not sponsored, endorsed, or promoted by the Exchange. The Exchange is not responsible for, nor has it participated, in the determination of the timing of, prices of, or quantities of Shares of a Fund to be issued, nor in the determination or calculation of the equation by which the Shares are redeemable. The Exchange has no obligation or liability to owners of the Shares of the Funds in connection with the administration, marketing or trading of the Shares of the Funds. Without limiting any of the foregoing, in no event shall the Exchange have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

#### **BUYING AND SELLING FUND SHARES**

Shares will be issued or redeemed by each Fund at NAV per Share only in Creation Units as follows: 10,000 Shares for each Fund. Creation Units are generally issued and redeemed only in-kind for securities although a portion may be in cash.

Shares will trade on the secondary market, however, which is where most retail investors will buy and sell Shares. It is expected that only a limited number of institutional investors, called Authorized Participants or "APs," will purchase and redeem Shares directly from the Funds. APs may acquire Shares directly from the Funds, and APs may tender their Shares for redemption directly to the Funds, at NAV per Share only in large blocks, or Creation Units. Purchases and redemptions directly with the Funds must follow the Funds' procedures, which are described in the SAI.

**Except when aggregated in Creation Units, Shares are not redeemable with the Funds.**

#### **BUYING AND SELLING SHARES ON THE SECONDARY MARKET**

Most investors will buy and sell Shares in secondary market transactions through brokers and, therefore, must have a brokerage account to buy and sell Shares. Shares can be bought or sold through your broker throughout the trading day like shares of any publicly traded issuer. The Trust does not impose any redemption fees or restrictions on redemptions of Shares in the secondary market. When buying or selling Shares through a broker, you will incur customary brokerage commissions and charges, and you may pay some or all of the spread between the bid and the offered prices in the secondary market for Shares. The price at which you buy or sell Shares (*i.e.*, the market price)

may be more or less than the NAV of the Shares. Unless imposed by your broker, there is no minimum dollar amount you must invest in a Fund and no minimum number of Shares you must buy.

Shares of each Fund are listed on the Exchange under the following symbols:

<b>Fund</b>	<b>Trading Symbol</b>	<b>Exchange</b>
Strive U.S. Semiconductor ETF	SHOC	NYSE Arca, Inc.
Strive U.S. Technology ETF	STXT	NYSE Arca, Inc.

The Exchanges are generally open Monday through Friday and are closed for weekends and the following holidays: New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Good Friday, Memorial Day, Juneteenth Independence Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

For information about buying and selling Shares on an Exchange or in the secondary markets, please contact your broker or dealer.

**Book Entry.** Shares are held in book entry form, which means that no stock certificates are issued. The Depository Trust Company ("DTC"), or its nominee, will be the registered owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of Shares, you are not entitled to receive physical delivery of stock certificates or to have Shares registered in your name, and you are not considered a registered owner of Shares. Therefore, to exercise any right as an owner of Shares, you must rely on the procedures of DTC and its participants. These procedures are the same as those that apply to any stocks that you hold in book entry or "street name" through your brokerage account. Your account information will be maintained by your broker, which will provide you with account statements, confirmations of your purchases and sales of Shares, and tax information.

Your broker also will be responsible for distributing income dividends and capital gain distributions and for ensuring that you receive shareholder reports and other communications from the Funds.

**Share Trading Prices.** The trading prices of a Fund's Shares may differ from the Fund's daily NAV and can be affected by market forces of supply and demand for the Fund's Shares, the prices of the Fund's portfolio securities, economic conditions and other factors.

The Exchange through the facilities of the Consolidated Tape Association or another market information provider intends to disseminate the approximate value of each Fund's portfolio every fifteen seconds during regular U.S. trading hours. This approximate value should not be viewed as a "real-time" update of the NAV of a Fund because the approximate value may not be calculated in the same manner as the NAV, which is computed once a day. The quotations for certain investments may not be updated during U.S. trading hours if such holdings do not trade in the U.S., except such quotations may be updated to reflect currency fluctuations. The Funds are not involved in, or responsible for, the calculation or dissemination of the approximate values and make no warranty as to the accuracy of these values.

**Continuous Offering.** The method by which Creation Units of Shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Units of Shares are issued and sold by a Fund on an ongoing basis, a "distribution," as such term is used in the Securities Act, may occur at any point. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirements and liability provisions of the Securities Act. For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares and sells the Shares directly to customers or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a characterization as an underwriter.

Broker-dealer firms should also note that dealers who are not “underwriters” but are effecting transactions in Shares, whether or not participating in the distribution of Shares, are generally required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the Investment Company Act of 1940, as amended (the “Investment Company Act”). As a result, broker-dealer firms should note that dealers who are not “underwriters” but are participating in a distribution (as contrasted with engaging in ordinary secondary market transactions) and thus dealing with the Shares that are part of an over-allotment within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the Securities Act is only available with respect to transactions on a national exchange.

#### **ACTIVE INVESTORS AND MARKET TIMING**

The Board has evaluated the risks of market timing activities by the Funds’ shareholders. The Board noted that the Funds’ Shares can be purchased and redeemed directly from a Fund only in Creation Units by APs and that the vast majority of trading in the Funds’ Shares occurs on the secondary market. Because the secondary market trades do not directly involve the Funds, it is unlikely those trades would cause the harmful effects of market timing, including dilution, disruption of portfolio management, increases in the Funds’ trading costs and the realization of capital gains. With regard to the purchase or redemption of Creation Units directly with a Fund, to the extent effected in-kind (i.e., for securities), the Board noted that those trades do not cause the harmful effects (as previously noted) that may result from frequent cash trades. To the extent trades are effected in whole or in part in cash, the Board noted that those trades could result in dilution to a Fund and increased transaction costs, which could negatively impact a Fund’s ability to achieve its investment objective, although in certain circumstances (e.g., in conjunction with a rebalance of a Fund’s underlying index), such trades may benefit Fund shareholders by increasing the tax efficiency of a Fund. The Board also noted that direct trading by APs is critical to ensuring that a Fund’s Shares trade at or close to NAV. In addition, the Funds may impose transaction fees on purchases and redemptions of Shares to cover the custodial and other costs incurred by a Fund in effecting trades. Given this structure, the Board determined that it is not necessary to adopt policies and procedures to detect and deter market timing of the Funds’ Shares.

#### **DISTRIBUTION AND SERVICE PLAN**

Each Fund has adopted the Plan pursuant to Rule 12b-1 under the Investment Company Act. Under the Plan, a Fund may be authorized to pay distribution fees of up to 0.25% of its average daily net assets each year to the Distributor and other firms that provide distribution and shareholder services (“Service Providers”). As of the date of this Prospectus, the maximum amount payable under the Plan is set at 0% until further action by the Board. In the event 12b-1 fees are charged, over time they would increase the cost of an investment in a Fund because they would be paid on an ongoing basis.

#### **NET ASSET VALUE**

The NAV of Shares is calculated each business day as of the close of regular trading on the New York Stock Exchange (“NYSE”), generally 4:00 p.m., Eastern time.

Each Fund calculates its NAV per Share by:

- Taking the current market value of its total assets,
- Subtracting any liabilities, and
- Dividing that amount by the total number of Shares owned by shareholders.

If you buy or sell Shares on the secondary market, you will pay or receive the market price, which may be higher or lower than NAV. Your transaction will be priced at NAV only if you purchase or redeem your Shares in Creation Units.

Equity securities that are traded on a national securities exchange, except those listed on the NASDAQ Global Market<sup>®</sup> (“NASDAQ”) are valued at the last reported sale price on the exchange on which the security is principally traded. Securities traded on NASDAQ will be valued at the NASDAQ Official Closing Price (“NOCP”). If, on a particular day, an exchange-traded or NASDAQ security does not trade, then the most recent quoted bid for exchange traded or the mean between the most recent quoted bid and ask price for NASDAQ securities will be used. Equity securities that are not traded on a listed exchange are generally valued at the last sale price in the over-the-counter market. If a nonexchange traded security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used.

Redeemable securities issued by open-end investment companies are valued at the investment company’s applicable net asset value, with the exception of exchange-traded open-end investment companies which are priced as equity securities.

If a market price is not readily available or is deemed not to reflect market value, the relevant Fund will determine the price of the security held by it based on a determination of the security’s fair value pursuant to policies and procedures approved by the Board.

To the extent the Funds hold securities that may trade infrequently, fair valuation may have the effect of reducing stale pricing arbitrage opportunities presented by the pricing of Shares. However, when a Fund uses fair valuation to price securities, it may value those securities higher or lower than another fund would have priced the security. Also, the use of fair valuation may cause the Shares’ NAV performance to diverge from the Shares’ market price and from the performance of various benchmarks used to compare a Fund’s performance because benchmarks generally do not use fair valuation techniques. Because of the judgment involved in fair valuation decisions, there can be no assurance that the value ascribed to a particular security is accurate.

#### **FUND WEBSITE AND DISCLOSURE OF PORTFOLIO HOLDINGS**

The Trust maintains a website for the Funds at [www.strivefunds.com](http://www.strivefunds.com). Among other things, the website includes this Prospectus and the SAI, and will include the Funds’ holdings, the Funds’ last annual and semi-annual reports (when available). The website will show each Fund’s daily NAV per share, market price, and premium or discount, each as of the prior business day. The website will also show the extent and frequency of each Fund’s premiums and discounts. Further, the website will include each Fund’s median bid-ask spread over the most recent thirty calendar days.

Each day a Fund is open for business, the Trust publicly disseminates each Fund’s full portfolio holdings as of the close of the previous day through its website at [www.strivefunds.com](http://www.strivefunds.com). A description of the Trust’s policies and procedures with respect to the disclosure of the Funds’ portfolio holdings is available in the Funds’ SAI.

#### **INVESTMENTS BY OTHER INVESTMENT COMPANIES**

For purposes of the Investment Company Act, Shares are issued by a registered investment company and purchases of such Shares by registered investment companies and companies relying on Section 3(c)(1) or 3(c)(7) of the Investment Company Act are subject to the restrictions set forth in Section 12(d)(1) of the Investment Company Act, except as permitted by Rule 6c-11, Rule 12d1-4, or an exemptive order of the SEC.

#### **DIVIDENDS, DISTRIBUTIONS, AND TAXES**

As with any investment, you should consider how your investment in Shares will be taxed. The tax information in this Prospectus is provided as general information. You should consult your own tax professional about the tax consequences of an investment in Shares.

Unless your investment in Shares is made through a tax-exempt entity or tax-deferred retirement account, such as an IRA plan, you need to be aware of the possible tax consequences when:

- Your Fund makes distributions,
- You sell your Shares listed on the Exchange, and

- You purchase or redeem Creation Units.

## **Dividends and Distributions**

*Dividends and Distributions.* Each Fund has elected and intends to qualify each year as a regulated investment company under the Internal Revenue Code of 1986, as amended. As regulated investment companies, each Fund generally pays no federal income tax on the income and gains it distributes to you. Each Fund expects to declare and to distribute its net investment income, if any, to shareholders as dividends annually. Each Fund will distribute net realized capital gains, if any, at least annually. Each Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the relevant Fund. The amount of any distribution will vary, and there is no guarantee a Fund will pay either an income dividend or a capital gains distribution. Distributions may be reinvested automatically in additional whole Shares only if the broker through whom you purchased Shares makes such option available.

*Avoid “Buying a Dividend.”* At the time you purchase Shares of a Fund, the Fund’s NAV may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. Buying Shares in a Fund just before it declares an income dividend or capital gains distribution is sometimes known as “buying a dividend.”

## **Taxes**

*Tax Considerations.* Each Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gain, or some combination of both. This is true whether you reinvest your distributions in additional Shares or receive them in cash. For federal income tax purposes, Fund distributions of short-term capital gains are taxable to you as ordinary income. Fund distributions of long-term capital gains are taxable to you as long-term capital gain no matter how long you have owned your Shares. A portion of income dividends reported by each Fund may be qualified dividend income eligible for taxation by individual shareholders at long-term capital gain rates provided certain holding period requirements are met.

*Taxes on Sales of Shares.* A sale or exchange of Shares is a taxable event and, accordingly, a capital gain or loss will generally be recognized. Currently, any capital gain or loss realized upon a sale of Shares generally is treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less. The ability to deduct capital losses may be limited.

*Medicare Tax.* An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Shares) of U.S. individuals, estates and trusts to the extent that such person’s “modified adjusted gross income” (in the case of an individual) or “adjusted gross income” (in the case of an estate or trust) exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

*Backup Withholding.* By law, if you do not provide the Funds with your proper taxpayer identification number and certain required certifications, you may be subject to backup withholding on any distributions of income, capital gains or proceeds from the sale of your Shares. The Funds also must withhold if the Internal Revenue Service (“IRS”) instructs it to do so. When withholding is required, the amount will be 24% of any distributions or proceeds paid.

*State and Local Taxes.* Fund distributions and gains from the sale or exchange of your Shares generally are subject to state and local taxes.

*Taxes on Purchase and Redemption of Creation Units.* An AP who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of purchase and the exchanger’s aggregate basis in the securities surrendered and the cash amount paid. A person who exchanges Creation Units for equity securities generally will recognize a gain or loss equal to the difference between the exchanger’s basis in the Creation Units and the aggregate market value of the securities received and the cash amount received. The IRS, however, may assert that a loss realized upon an exchange

of securities for Creation Units cannot be deducted currently under the rules governing “wash sales,” or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether the wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If a Fund redeems Creation Units in cash, it may recognize more capital gains than it will if it redeems Creation Units in-kind.

*Foreign Tax Credits.* If a Fund qualifies to pass through to you the tax benefits from foreign taxes it pays on its investments, and elects to do so, then any foreign taxes it pays on these investments may be passed through to you as a foreign tax credit.

*Non-U.S. Investors.* Non-U.S. investors may be subject to U.S. withholding tax at a 30% or lower treaty rate and U.S. estate tax and are subject to special U.S. tax certification requirements to avoid backup withholding and claim any treaty benefits. An exemption from U.S. withholding tax is provided for capital gain dividends paid by a Fund from long-term capital gains, if any. The exemptions from U.S. withholding for interest-related dividends paid by a Fund from its qualified net interest income from U.S. sources and short-term capital gain dividends have expired for taxable years of a Fund that begin on or after January 1, 2014. It is unclear as of the date of this prospectus whether Congress will reinstate the exemptions for interest-related and short-term capital gain dividends or, if reinstated, whether such exemptions would have retroactive effect. However, notwithstanding such exemptions from U.S. withholding at the source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person.

*Other Reporting and Withholding Requirements.* Under the Foreign Account Tax Compliance Act (FATCA), each Fund will be required to withhold a 30% tax on (a) income dividends paid by the Fund, and (b) certain capital gain distributions and the proceeds arising from the sale of Shares paid by the Fund, to certain foreign entities, referred to as foreign financial institutions or non-financial foreign entities, that fail to comply (or be deemed compliant) with extensive new reporting and withholding requirements designed to inform the U.S. Department of the Treasury of U.S.-owned foreign investment accounts. Each Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

*Possible Tax Law Changes.* At the time that this prospectus is being prepared, various administrative and legislative changes to the federal tax laws are under consideration, but it is not possible at this time to determine whether any of these changes will be made or what the changes might entail.

**This discussion of “Dividends, Distributions and Taxes” is not intended or written to be used as tax advice. Because everyone’s tax situation is unique, you should consult your tax professional about federal, state, local or foreign tax consequences before making an investment in the Funds.**

## **FINANCIAL HIGHLIGHTS**

The Funds are newly organized and therefore have not yet had any operations as of the date of this Prospectus and do not have financial highlights to present at this time.

## **ANNUAL/SEMI-ANNUAL REPORTS TO SHAREHOLDERS**

Additional information about the Funds will be in their annual and semi-annual reports to shareholders, when available. The annual report will explain the market conditions and investment strategies affecting each Fund’s performance during the last fiscal year.

## **STATEMENT OF ADDITIONAL INFORMATION**

The SAI dated October 3, 2022 which contains more details about the Funds, is incorporated by reference in its entirety into this Prospectus, which means that it is legally part of this Prospectus.

To receive a free copy of the latest annual or semi-annual report, when available, or the SAI, or to request additional information about the Funds, please contact us as follows:

Call: (215) 882-9983

Write: 19 East Eagle Road  
Havertown, PA 19083

Visit: [www.strivefunds.com](http://www.strivefunds.com)

## **PAPER COPIES**

Please note that paper copies of the Funds' shareholder reports will generally not be sent, unless you specifically request paper copies of the Funds' reports from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on the Funds' website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

You may elect to receive all future Fund reports in paper free of charge. Please contact your financial intermediary to inform them that you wish to continue receiving paper copies of Fund shareholder reports and for details about whether your election to receive reports in paper will apply to all funds held with your financial intermediary.

## **INFORMATION PROVIDED BY THE SECURITIES AND EXCHANGE COMMISSION**

Information about the Funds, including their reports and the SAI, has been filed with the SEC. It can be reviewed on the EDGAR database on the SEC's internet site (<http://www.sec.gov>). You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address ([publicinfo@sec.gov](mailto:publicinfo@sec.gov)).

Investment Company Act File No. 811-22961.
